

Reference Check Form

Reference checks must be completed on all applicants who apply through the Saskatchewan Adoption Program and who are released for a Homestudy. You are asked to provide the names of five (5) individuals who know you and who can comment on your character as well as on their support for your adoption plan. Of your references, a maximum of two (2) can be family members, while the rest can be from people such as ministers, employers or friends. The Independent Practitioner will follow up by telephone or in person with two (2) of your references. Foreign countries may specify from whom they require a reference, and both applicants and Independent Practitioners should be aware of any such requirements.
